

Test Centre

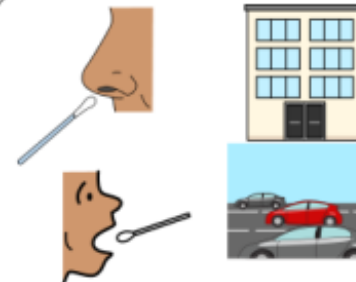

I need a coronavirus test.

I need a test because I have a cough or a temperature.

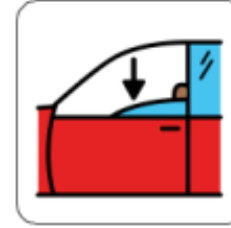

I will have my test done at the test centre.

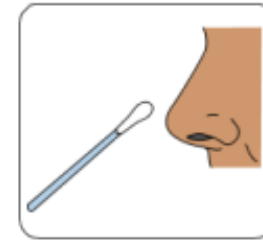

Test Centre

I will stay in my car.

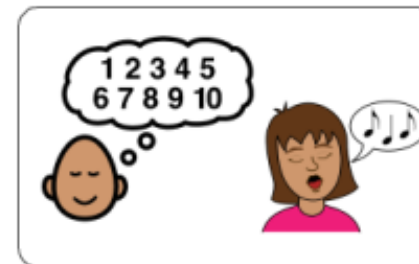

I will put my window
down.

A nurse will quickly put a swab
in one side of my nose.

I can count to 10 or sing a song.

Test Centre

The nurse will quickly
put a swab on the back
of my throat.

This will be finished.

I am a star.
